

DMR Association Interoperability Certificate
 Document **10011**
www.dmrassociation.org

Note to readers: This DMR Association Interoperability Certificate documents that the Hytera Communications Corporation Limited product as detailed in Table A below:

TABLE A: DMR Equipment Tested		
Manufacturer	Hytera Communications Corporation Limited	
Model	RD980 U(1)	
Firmware	ID	Version
	A4.05.14.000	N/A

has successfully passed the DMR Association Tier 2 mandatory and optional interoperability tests outlined in the DMR Association test specification documents: *Interoperability Testing for DMR Tier 2 Systems – Mandatory Features V 1.03* and *Interoperability Testing for DMR Tier 2 Systems – Optional Features V 1.03* on 22nd November 2012 with the Kirisun Communications Corporation Limited product referenced in Table B below.

TABLE B: DMR Equipment Tested		
Manufacturer	Kirisun Communications Corporation Limited	
Model	DP770	
Firmware	ID	Version
	R0.17.018	N/A

The DMR Association hereby declares that the product in Table A when tested with the product in Table B passed interoperability test cases as set out in the attached summary test report document *Kirisun-Hytera Test Summary, November 2012*.

The DMR Association hereby declares that the testing took place according to the procedures and in a laboratory meeting the criteria set out in the DMR Association document: *Interoperability Laboratory Recognition Process and Test Session Procedures, V1.03 – October 2012*.

All products belonging to the same model classes, meaning equipment that Hytera communications corporations Limited and Kirisun Communications Corporation Limited have determined, through engineering analysis or internal functional testing, to be functionally equivalent to the products in Table A and Table B, may be declared interoperable by Hytera Communications Corporation Limited and Kirisun Communication Corporation Limited.
